Implementation of RGGVY in Jharkhand

4217 SHRI S.S. AHLUWALIA: Will the Minister of POWER be pleased to state:

(a) whether village electrification programme under the Rajiv Gandhi Grameen Vidyutikaran Yojana has been implemented in Jharkhand;

(b) if so, the details thereof;

(c) whether any assessment has been conducted on the implementation of the programme from time to time;

(d) if so, the details thereof indicating findings of the exercise;

(e) whether Government have been satisfied with the progress of implementation;

(f) if not, the reasons therefor: and

(g) the steps contemplated to improve upon the same?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) and (b) Yes, Sir. Jharkhand State has assigned the execution of rural electrification works under Rajiv Gandhi Grameen Vidyutikaran Yojana in eight districts each to National Thermal Power Corporation and Damodar Valley Corporation whereas in balance six districts the work are to be executed by Jharkhand State Electricity Board. REC has received 22 DPRs from Jharkhand Government. 13 projects have been sanctioned for implementation in Phase-I of the scheme covering 7,352 un-electrified villages for electrification and 4,379 electrified villages for intensive electrification at the total cost of Rs. 1,28,767 lakh. Awards have been placed for 10 projects. Jharkhand Government has availed an amount of Rs. 288.74 crore up till 31-03-2007.

(c) and (d) Rural Electrification Corporation have been periodically reviewing the performance of Rajiv Gandhi Grameen Vidyutikaran Yojana in Jharkhand and have been constantly impressing upon the State Government and implementing agencies for expeditious execution of sanctioned projects. Implementing agencies have geared up to implement RGGVY in the State.

(e) and (f) The submission of Detailed Project Reports by Jharkhand Government commenced only during the second half of 2005-06. By that time the limit of Rs. 5000 crore sanctioned cost under Phase-I of this scheme was already reached. 125 projects from states that had geared up early had been approved by then. In the last quarter of the financial year 2006-07, the Ministry of Power succeeded in getting approval to go beyond the previous limit of Rs. 5000 crore, after which 110 projects in addition to the 125 projects were made eligible for release of funds in Phase-I of the scheme, including 13 projects of Jharkhand, out of which 10 projects are now under implementation. Thus, implementation of RGGVY in Jharkhand started only in March, 2007.

(g) Ministry of Power and Rural Electrification Corporation have been impressing upon the State Government and implementing agencies for expeditious execution of RGGVY projects Ministry of Power has been organizing meetings with the implementing agencies to remove the bottlenecks in implementation like that of forest clearance for execution of projects.

Grant-in-aid for power projects under RGGVY

4218. SHRI JANARDHANA POOJARY: Will the Minister of POWER be pleased to state:

(a) whether Grant-in-aid is sanctioned to State Governments for implementation of power projects under RGGVY:

(b) if so. the details of the scheme, along with the amount sanctioned during the last five years to State Governments year-wise and State-wise with special reference to Karnataka, and

(c) the details of the requests received from Karnataka Government concerning RGGVY and Centre's response thereto?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) Yes. Sir. 90% of overall cost of the projects is being provided as capital subsidy by the Government under 'Rajiv Gandhi Grameen Vidyutikaran Yojana' "Scheme for Rural Electricity Infrastructure and Household Electrification"

(b) The salient features of Rajiv Gandhi Grameen Vidyutikaran Yojana are —

Under this scheme 90% Capital Subsidy would be provided for projects for:

(i) Creation of Rural Electricity Distribution Backbone (REDB) with one 33/11 kV (or 66/11 kV) substation in every block appropriately linked to the State Transmission System.

(ii) Creation of Village Electricity Infrastructure (VEI) for electrification of all un-electrified villages/habitations and provision of distribution transformer(s) of appropriate capacity in every village/habitation

(iii) Decentralized Distributed Generation (DDG) and Supply System from conventional sources for Villages/Habitations where grid
